Facility Improvement Grant Program for Childcare Facilities
The Improvement Grant for Childcare Facilities program is designed to help meet our workforce needs for childcare in the Lisbon ND area. By helping improve our current facilities and helping them attain certain needs, we will help give them the tools to increase the capacity of the facility and help give incentives to new childcare facilities.

This program is for licensed childcare facilities. The two types of facilities that we currently have in Lisbon are Licensed In-home and Licensed Group/center facilities. Each application will be turned into the STAR Committee, they will review all applications and send the recommendation to the City Council.

To be eligible for this program the following requirements are required:

- A. Businesses must be in the City Limits of Lisbon or within 10miles.
- B. The business must be a North Dakota licensed childcare provider and must provide proof.
- C. Business must be up to date on all City Utility Bills and Property Taxes.
- D. Improvements will need to acquire a building permit from the City of Lisbon.
- E. <u>Businesses</u> will need to provide quotes or receipts of purchases. (if possible, please purchase locally)
- F. More priority will be given to a facility that proves these changes will increase capacity.

To complete the application process, you will need to fill out the attached application form, the facility improvement form, and all supporting documentation. If you have any questions about the application process, please you can reach out to the Economic Development Director, Kristina Dick, or any of the STAR Committee member.
